

We Believe Kids

# NIKOO TOYS

Nikoo Toys was established in 2017 with the purpose of bringing joy to each family by manufacturing toys for kids. The main significant goal is to make kids happy and keep them safe with the High-quality plastic toys, as well help them to experience.

2017-2023

Nikoo Toys production, with more than 40 years of experience in the manufacturing and molding of plastic products, was established and started its work in toy manufacturing since 2017 in Iran. Furthermore, we are grateful to be one of the Iranian toy manufacturing companies, which follow the main rules of Quality, Identity and Beauty.

Our products consist of classical plastic toys which are suitable for kids from 1 to 5 years old.

As one of the most critical aspects of toys for kids in these ages is safety, The company tried to take this factor into account and focused on manufacturing toys which are safe enough for kids.

We are honored to produce toys that are satisfactory for consumers.

Made in IRAN
